

Parish Plan Progress Team Report – 05/11/12

Following the visit to our last meeting from Steven Clark and Jan Hamilton-Thompson there is a report on the first page of the SNC website about the 'Best Village Competition'. The article is encouraging other villages to enter the competition in the future and has details of the Blisworth entry.

The 105 trees from The Woodland Trust have arrived today and we discussed various suggestions as to where they should be planted.

Mr and Mrs Coles have been extremely cooperative and helpful with the displays in the window of their property and are keen to have them changed fairly frequently. A change of display is being considered for the end of the month.

There have been requests made from residents for more seats around the village.

There has been positive feedback about the 'Prescription Collection Service'.
