

**Parish Plan Progress Team report for the Parish Council Meeting 1<sup>st</sup> July 2013**

1. The Diocesan Advisory Council has recommended the provision of the information board in The Old Graveyard (Cemetery). Permission is needed from the Chancellor of the Peterborough Diocese and the appropriate forms have been submitted, as well as public notices being displayed.

There was a meeting this morning of the people involved with designing the board and it is very near completion and ready for printing.

Sarah Sykes has been on a course about Managing Churchyards for wildlife and has much useful resource information for the ongoing maintenance of the various areas.

2. The bench in the front of the Chapel garden is now ready for use. Many thanks to the very generous donation from the Film Club towards the cost of this project. A plaque will be fitted to the bench acknowledging the gift.
3. Di joined a site meeting to look at possible locations for the Best Village Award signs and some of the original places we had planned proved not to be suitable. Some because of obscuring vision of motorists and others not being visible enough to drivers entering the village. The Team visited the proposed new sites after the meeting on 17<sup>th</sup> June and approved the slight alterations to the location of the signs.
