Traffic Management

When programming works, we consider the impact on all network users and plan our works to minimise disruption as much as possible. Highlighted in **BLUE** on the map above is the diversion route with the **RED** being the road closure extents. During the road closure please use the fully signed diversion route. Please also refer to one.network and the news section on the website – kierwsp.co.uk.

We do understand that the closure will be inconvenient, but works can only be completed safely and efficiently with this in place. We hope any inconvenience will be tolerated for the duration of the works.
