Information available from Blisworth Parish Council under the Model Publication Scheme

This guidance gives examples of the kinds of information that Blisworth Parish Council is able to provide in order to meet our commitments under the Model Publication Scheme.

Blisworth Parish Council is expected to make the information in this definition document available unless:

- It does not hold the information;
- The information is exempt under one of the FOIA exemptions or Environmental Information Regulations Exceptions, or its release is prohibited by another statute;
- The information is readily and publicly available from an external website; such information may have been provided by the public authority or on its behalf. The authority must provide a direct link to that information;
- The information is archived, out of date or otherwise inaccessible; or,
- It would be impractical or resource-intensive to prepare the material for routine release.

The guidance is not meant to give an exhaustive list of everything that should be covered by a publication scheme. Blisworth Parish Council commits to look to provide as much information as possible on a routine basis.

Publishing datasets for re-use

Public authorities must publish under their publication scheme any dataset they hold that has been requested, together with any updated versions, unless they are satisfied that it is not appropriate to do so. So far as reasonably practicable, they must publish it in an electronic form that is capable of re-use.
